

Pool Enclosures.

A Real Value Every Way You Look At It.

A screen pool cage is an affordable addition that adds value to your home and protects your investment. It also reduces maintenance time significantly, giving you more time to enjoy your pool with friends and family.

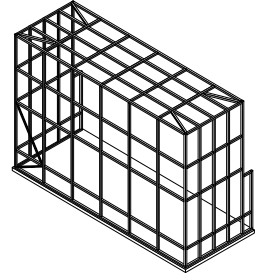

Features and Benefits:

- Extruded aluminum baked enamel finished frame.
- Long lasting fiberglass vinyl-coated mesh screen is heavier than standard to withstand outside weather conditions.
- Increases living space.
- Keeps vegetation and other debris from getting in pool.
- Provides outside entertainment area for barbecues and other social activities free from insects and other pests.
- Reduces water and chemical bills by slowing down the evaporation process.
- Custom built to fit your space in a variety of styles and shapes.
- Extend from existing roof-line or patio cover, or as a freestanding unit.
- Optional covered roof to keep out rain and protect furniture.
- Low maintenance. An occasional pressure wash is normally all that is needed.

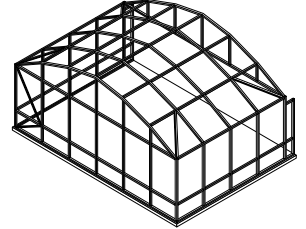

Choose a standard design or work with an engineer to develop a custom design unique to your home.
